MIT Sloan offers three optional academic tracks within the MBA program that are designed to meet the internship and career interests of their participants. The tracks have been designed to make our graduates successful on the first day of work and as they advance their careers. Each track builds on the expertise and research of our renowned faculty and provides students with theoretical and practical applications of the different functional areas covered in each track.

• Enterprise Management
• Entrepreneurship and Innovation
• Finance

"The Finance Track provided a great opportunity to hone my finance skills, which was crucial as I was a career changer, and allowed me to create a network of students interested in finance while at MIT Sloan. As a president of the Finance Club and recent intern in investment banking, I worked closely with the Career Development Office and Finance faculty to schedule events to enhance the first-year student recruiting experience."

Josh Rider, MBA '12

"Finance"
Finance at MIT Sloan

Finance is about how firms raise and invest capital; how individuals, associations, and businesses invest and manage wealth; and how markets for money, capital, and securities function. Finance helps individuals, businesses, and policymakers build insight into risk and uncertainty surrounding decisions that stretch over long periods of time.

The Finance Group offers the Finance Track, which consists of required courses, electives, and extracurricular activities designed to prepare MBA students for careers in the finance industry. You will have the opportunity to explore the world's major financial markets through on-site visits in New York, London, Hong Kong, and other cities. There, you will engage with leading industry practitioners to help solve important business problems. Designed for both career changers and experienced finance professionals, the Finance Track:

• Exposes you to the institutions and practices of the financial world
• Grounds you in the principles of finance theory and in the application of theory to real-world problems
• Delivers the intellectual challenges of business decisions and the distinct responsibilities of finance professionals
• Provides an overview of professional opportunities in finance
• Creates a network of students and alumni in financial careers

- Morgan Stanley
- Pacific Investment Management Company, LLC
- UBS Financial Services
- Wellington Management Company

Learn more about finance and meet alumni and recruiters:
New York Finance Day gives MBAs an opportunity to meet with alumni and corporate recruiters at multiple investment banks. Through on-site visits, informal presentations, lunch meetings, and an alumni reception, you will have an invaluable networking experience, which positions corporate recruiters as seeking to fill, and makes important connections to support your summer internship search.

The London Banking Summit is co-organized by the investment banks and a select group of our peer schools. You will attend informational meetings to explore opportunities in investment banking, sales and trading, and private wealth management.

Boston Investment Management Day gives you the insider’s view into the financial services industry through a packed day of visits. You will have an invaluable networking opportunity, which positions corporate recruiters as seeking to fill, and makes important connections to support your summer internship search.

MIT Sloan offers three optional academic tracks within the MBA program that are designed to meet the internship and career interests of their participants. The tracks have been designed to create a seamless transition from the first day of work and as they advance their careers. Each track builds on the expertise and research of our renowned faculty and provides students with theoretical and practical applications of the different functional areas covered in the tracks:

• Enterprise Management
• Entrepreneurship and Innovation
• Finance

The Finance Track provided a great opportunity for me as a career changer, as I was a career changer, and allowed me to gain a broad understanding in finance at MIT Sloan. As a financial analyst at an asset management firm in investment banking, I worked closely with the Career Development Office and Finance faculty to schedule events to enhance the first-year student recruiting experience.”

Josh Rider, MBA ‘12
