“Getting to explore the Institute more broadly and the integration with MIT is important for me. I enjoy being at a place that brings Mens et Manus to life and thinking about how we take innovations that happen in glass boxes and labs and bring them to market. MIT Sloan is really a critical component to making that happen. And seeing how MIT Sloan fits into the mission of the Institute really sold me that this was the place to be.” — JULIUS TAPPER, MBA ’16
