

This roadmap is an 'MIT student optimized' guide for structuring your schedule. Course 15 always encourages you to choose courses based upon interest, not by whichever checks off the most boxes. Please read the footnotes for additional options and email ugeducation@sloan.mit.edu or come see us in the Program Office to discuss.

Notes:

¹Students who are [15-1 primary major](#) and [14-2 secondary major](#) can choose Economics for their HASS concentration and use up to six of their [14-2 requirements](#) toward the HASS requirement.

²[14.30](#) fulfills the [Probability + Statistics requirement for 15-1](#) and is [required for 14-2](#).

³[15.312](#) is no longer being offered. Students who have previously taken [15.312](#) can substitute this course for [15.301](#).

⁴Up to two [Course 14](#) or [Course 18](#) or other non-Course 15 subjects can also count as [15-1 Concentration Electives](#) provided these subjects form an intellectually coherent [15-1 Concentration](#).

⁵Joint Course 14/15 subjects ([14.45/15.0161J](#) and [14.26/15.039J](#)) can count as [14-1 Economic Electives](#) and also towards the minimum three Course 15 [15-1 Concentration Electives](#) provided these subjects form an intellectually coherent [15-1 Concentration](#).

⁶Depending on the amount of double counting towards major and GIR requirements, additional units will be needed to accrue the 180 units beyond GIRs.

⁷Please check the [Course 14 website](#) for list of subjects that fulfill each requirement bucket. Take note of level, CI-M status, prerequisites and semesters offered.
