

This roadmap is an 'MIT student optimized' guide for structuring your schedule. Course 15 always encourages you to choose courses based upon interest, not by whichever checks off the most boxes. Please read the footnotes for additional options and email ugeducation@sloan.mit.edu or come see us in the Program Office to discuss

Notes:

¹Students who choose 15-3 as primary major and 14-2 as secondary major can count up to 6 subjects toward both the [Course 14-2 major](#) and the HASS requirement.

²Students can choose to take both [15.417](#) and [15.418](#). Students who take [15.401](#) (rather than [15.417](#)) must then take [15.418](#). Students who take [15.402](#) (rather than [15.418](#)) must take [15.417](#). Majors who take only one of [15.417](#) and [15.418](#), must take [15.276](#) or [15.279](#) to complete their second CI-M.

³Depending on the amount of double counting towards major and GIR requirements, additional units will be needed to accrue the 180 units beyond GIRs.

⁴Please check the [Course 14 website](#) for list of subjects that fulfill each requirement bucket. Take note of level, CI-M status, prerequisites and semesters offered.
