

This roadmap is an 'MIT student optimized' guide for structuring your schedule. Course 15 always encourages you to choose courses based upon interest, not by whichever checks off the most boxes. Please read the footnotes for additional options and email ugeducation@sloan.mit.edu or come see us in the Program Office to discuss.

**Roadmap – [Course 15-3 \(Finance\)](#) &

Notes:

¹Students can choose to take both [15.417](#) and [15.418](#). Students who take [15.401](#) (rather than [15.417](#)) must then take [15.418](#). Students who take [15.402](#) (rather than [15.418](#)) must take [15.417](#). Majors who take only one of [15.417](#) and [15.418](#), must take [15.276](#) or [15.279](#) to complete their second CI-M.

²[18.05](#) can fulfill the [Probability+Statistics requirement for Course 15](#) and is a [Course 18 Elective](#). Students can also take [18.600](#) and [18.650](#) to fulfill the [Probability+Statistics requirement for Course 15](#) and as [Course 18 electives](#).

³[14.01](#) is a HASS subject. [15.0111](#) is not a HASS subject. If students take [15.0111](#), the 9 units will count toward the 180 units beyond GIRs and students will need to take another HASS subject.

⁴Plan your [Course 18 Electives](#) accordingly to fulfill the [Course 18 distributed restricted electives](#) and the required [Math CI-M subjects](#).
