

This roadmap should be viewed as a general guide for structuring your schedule. Actual course taking patterns will vary depending on academic interest and the semester the Course 15 major is begun/declared. Even if you think it is “too late” to declare Course 15, come see us in the Program Office to discuss.

Notes:

¹ Please check the Course 6 website for list of course alternatives and 6-3 degree substitutions/requirements.

² 6.041A&B can be used as the EECS Restricted Elective.

³ 14.30 does not satisfy the prereq for 15.075 or 18.650. Students who take 14.30 should take 14.32 to fulfill the probability/statistics requirement.

⁴ Students who choose to take 15.310 need a 2nd CI-M in the major. The choices are: 15.417 (Also counts as a Restricted Elective) or 15.418 (Also may count as a Concentration Elective) or 15.276 or 15.312 (Both may count as Concentration Electives).

⁵ 14.01 is a HASS subject. 15.0111 is not a HASS subject.

⁶ Up to two Course 6 courses can also count as Concentration Electives if they fit within the goals of the concentration. Consult with the Sloan Undergraduate Education Office.

With the flexibility in choosing concentration electives, please check the [online Subject Listing](#) for prerequisites and semester offered for specific Course 15 subjects.
